

## **Genetically Modified Organisms (GMO's)**

1. Find three "Pro" GMO websites with information about them. Find three "Anti" GMO websites with information about them. Choose 2 more of your own choosing on the topic. Record the web addresses as references.
2. What exactly is a GMO? How do we get them? How long have GMO's been around?
3. What are the benefits of GMO's?
4. What are the drawbacks of GMO's?
5. Why should you or I care?
6. Choose a "pro" or "anti" stance on GMO's. Convince me of your position in a persuasive essay and include citations from your research.
7. If a company such as Monsanto came to your college and tried to recruit you to work for their company, would you? Why or why not?
8. Some people believe GMO foods should be labeled so people know they are eating a genetically modified food. Do you agree or disagree? Why?
9. GMO's often get patented. Do you feel they should be protected by the patent system? Why or why not?
10. How are GMO's regulated?
