

## 2023 Esports Behavior Contract

I understand that being a student athlete is a privilege and that my behavior is a reflection of myself, my team, my coaches, and my school. I understand that any behavior that results in a student athlete receiving ISS/OSS in season, or out of season, can result in missed practices, missed games, and missed team bonding events. I understand that, as a result of my negative behavior, suspension from competition could happen. My being dismissed from the team is also possible to occur.
