- **Counting Box:** Make a counting box to help your child practice counting from 1 to 10. Use a marker to label sections of an empty egg carton with the numerals 1 through 10. Provide small objects to count, such as beans, marbles, buttons, pennies, or paper clips. Have your child count and place the correct number of objects in each labeled compartment.

Reading Logs:

Reading logs stay in their folders all month. Our reading goal, for the class, is 1,000 books every 9 weeks. When we reach this goal we will have a special surprise for the class.
