

# Educational Website Links

## Language/Literacy:

- [Storyline Online](#) is an online streaming video program featuring Screen Actors Guild members reading children's books aloud. Each book includes accompanying activities and lesson ideas.
- *Room 108* is a primary education site for kids. You will find an array of free online games with an educational focus. There are over 400 pages of kids educational games, interactive writing, animated stories, songs, puzzles, art, math, science, social studies, [distance learning](#) and much more. Go to <http://www.netrover.com/~kingskid/108b.html> for a fun resource for your kids!
- [www.carlscorner.us.com](http://www.carlscorner.us.com) offers a wide variety of literacy games and activities for children.
- <http://www.kidport.com/> is designed around "Think-and-Learn" modules which make students aware of the thinking skills they need to use while they are learning. This site covers math, science, social studies, language arts, creative arts, and even has a reference library. These interactive modules are also designed to help students learn the required K-8 materials. Projects are integrated into the learning modules to provide compelling real-world experiences and applications. Integrated reference materials provide the necessary background for Kidport activities and help with other school projects.
- Teachers around the world use [Starfall.com](#) and Starfall high-quality educational products as an inexpensive way to make the classroom more fun and inspire a love of reading and writing. Parents use Starfall to prepare their children for school, and to support them once they are there. Starfall is an educational alternative to other entertainment choices for children.
- Gamequarium has become one of the most popular educational web sites. Its happy underwater theme has made it a favorite of elementary school aged students. Check out Readquarium (Pre-K through 6th grade) and Gamequarium (Pre-K through 2nd grade). Both of these sections address literacy skills such as beginning and ending sounds, sight words, and rhyming, as well as emerging math skills, money, counting, colors, and shapes. Go to <http://www.gamequarium.com/> to start the fun!

## Math:

- For a site that offers activities for multiple subjects, try <http://www.edhelper.com/>. Here you will find activities for many subjects and areas of focus for grades K-8.

## Science:

- If you would like to share more about science through our space program, visit [www.nasa.gov](http://www.nasa.gov). This site is updated throughout the day and has extraordinary pictures and interactive areas.

## Social Studies:

- To learn more about our national government, go to <http://www.whitehouse.gov/kids/> Students will enjoy going to the "Kids" page to learn about Washington, our Presidents, and the White House.

## General:

- If you are looking for a very family oriented website, check out <http://www.kaboose.com/> It is a great site that offers information about childhood milestones and development as well as healthy living. The site includes kid friendly recipes and crafts and even a section just for Mom!
- Try <http://www.linktolearning.com/kindergarten.htm>. This link will take you to all sorts of Pre-k and K [educational games](#). Here are just a few skills that you can explore. Beginning sounds, Upper/Lowercase letters, Create words, ABC order, Phonics, Letter activities, Rhyming words, Story creator, Interactive stories, Directional words, Patterning, Counting, Sorting, Shapes, Sequencing, Addition, Subtraction. Get clicking and have some fun learning on the computer.
