STEAM CLASS

This month we worked on art projects for the Jack Hadley Museum. Some of our student's projects were chosen for display at the museum.

THE BOOKWORM

January was full of learning in the library! At the beginning of January we learned about Antarctica and read books about polar animals. We also discussed the author, Jory John, and his Food Group series with illustrator, Pete Oswald. We ended the month learning about the Caldecott Medal, which is given for the best illustrations of the year. We read former Caldecott Medal winners and saw different styles of illustrations.

COACH'S CORNER

Next week is the week your child will participate in Jump Rope for Heart in PE class. All money raised will be due February 16.

COUNSELOR'S CORNER

We are learning how to identify and respond to our feelings and the feelings of our friends. Ask your child about the feeling buddies - Happy, Happy's cousin Calm, Angry, Angry's cousin Frustrated, Sad, Sad's cousin Disappointed, Scared, and Scared's cousin Anxious.

FAMILY ENGAGEMENT COORDINATOR

Regular attendance is very important to your child's academic success. Sick students should stay home if they have a fever, vomiting, or have diarrhea. Otherwise, it is important that your child arrive at school on time every day. Having to catch up with class work can be stressful and interfere with learning. When they return, please send a parent or doctor's excuse.

TECHNOLOGY TIDBITS

Common Sense Media has great resources for internet safety.

Here are 25 free educational websites for kids!
