## This Week in Pre-K

This week in small groups, we worked on extending and creating AB patterns. We also read *Spookly the Square Pumpkin* and created our own Spookly pumpkin by drawing our own shape, cutting it, and tearing and gluing paper to cover our pumpkin.

Friday was Halloween. We celebrated Halloween by learning about a graph and graphing who would or would not go trick or treating. We also played some fun relay games outside and had a small celebration with snacks. Thank you to everyone who helped by sending in snacks and candy!

Please remember to check your child's folder daily.

All transportation changes should be made through the front office.
