August 15-19, 2022

**Important Dates:**

September 5: Labor Day (no school)

Raylen- August 21

**What We Learned This Week:**

We have done a GREAT job remembering our steps to coming in every morning! We have been learning how to be kind and use our words to solve problems. We are also practicing how to use the materials in each center during worktime appropriately.

**Our Goal for Next Week:**

Next week, we will get to open and explore new centers in our classroom, including the science and paint areas. We will also get to explore different rocks and gems using magnifying glasses, practice our cutting and gluing skills, as well as, draw pictures of ourselves and practice writing our names.

**Standards for Next Week:**

Each week, we will highlight only a few of the standards that we will cover for the next week. We cover many more that are not documented here.

**SC1.4a** Uses senses to observe, classify, and learn about objects and environment.

**SC1.4b** Uses simple tools correctly to experiment, observe, and increase understanding.

**Arrival/ Morning Routines**

The tardy bell rings at 8:05am. After 8:05, your child is considered late. If you are arriving after 8:05, please make sure that your child has had breakfast.

Establishing a morning routine is essential for our students to feel safe at school. For that reason, we ask that if you bring your child in, you assist them in putting up book bags and folders, washing their hands in the gang bathrooms, getting their breakfast, and then returning them to us at the door to our classroom. We can assist them after this and will then be able to begin our instructional day.

**Change in Transportation**

If you need to make a change in transportation for your child, remember to send in a note and/or call the front office. I cannot accept transportation changes through SeeSaw or email. Thank you!

**We practiced tearing by throwing a confetti party!!**
