

Syllabus: AP Language and Composition

Instructor: Jillian Mitchell jimitchell@tacjackets.net

Course Content

The course skills are organized within nine units that scaffold student development of the analysis and composition skills required for college credit. For each unit, the teacher selects a theme or topic and then chooses texts, typically short nonfiction pieces, that enable students to practice and develop the reading and writing skills for that unit. This course framework provides a description of what students should know and be able to do to qualify for college credit or placement. As always, you have the flexibility to organize the course content as you like.

Course Skills

The updated AP English Language and Composition framework included in the course and exam description outlines distinct skills that students should practice throughout the year—skills that will help them learn to think and act like writers.
