# Clear Cache and Cookies in Chrome

Click the three dots in the upper right corner of your Chrome browser

When you click the three dots this menu will appear.
Click "Settings"

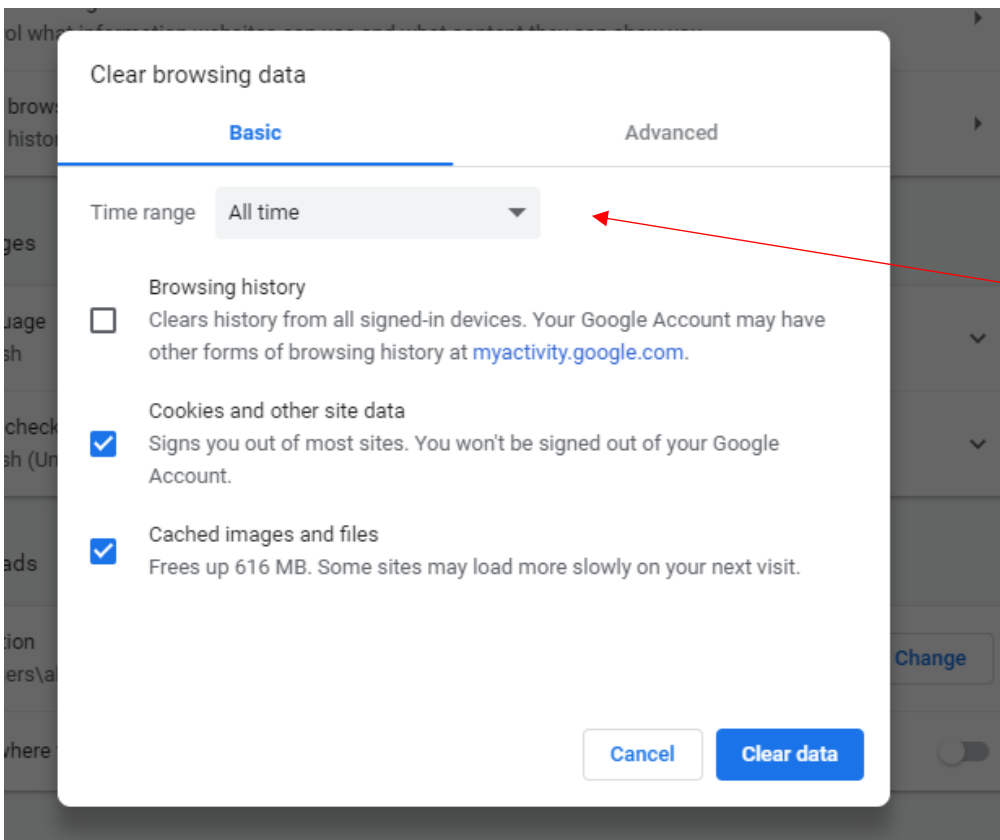

The Settings menu will appear. Scroll all the way to the bottom.

Click "Advanced"

Control what information websites can use and what content they can show you

Clear browsing data
Clear history, cookies, cache, and more

A list of options will appear. Toward the bottom of the first list you should see "Clear browsing data." Click on it.

Clear browsing data

Basic   Advanced

Time range   All time ▼

☐ Browsing history
    Clears history from all signed-in devices. Your Google Account may have other forms of browsing history at myactivity.google.com.

☑ Cookies and other site data
    Signs you out of most sites. You won't be signed out of your Google Account.

☑ Cached images and files
    Frees up 616 MB. Some sites may load more slowly on your next visit.

Cancel   **Clear data**

This box will appear. You will need to select a time range – "All Time" is best.

You can either click on "Clear Data" or go to advanced settings to specify exactly what you want cleared.

If you clicked "Clear Data" on the last step then you are all done! If you chose advanced, you will now select specific data to be cleared. I advise you to not select Passwords! As you can see, I only have the top four items selected on my computer. Once you have selected the data you want cleared, click "clear data" and you are done!
