

Requesting Special Diet Procedure

Attention Parents:

Attached is a Food Allergy Notification Form/Request for Accommodations for Special Diets. This form must be used when submitting documentation for School Meal Adjustments due to medical reasons and **MUST be signed by a Medical Doctor.**

Part 1: To be completed by Parent/Guardian

Part 2: Food Allergy section. To be completed by a Medical Doctor.

This notice only has to be submitted one time during your child's school enrollment. This notice will remain on file and meal accommodations will remain in effect unless we receive a statement from the medical professional adjusting guidance outlined on this form. Again, you will only be required to submit this form ONE time during your child's school enrollment in Thomas County Schools. Adjustments to meal components must be supported by a medical statement if future changes are required. Otherwise, dietary adjustments will remain in effect until the student leaves the Thomas County School System.

If your child has a food allergy and meal adjustments are required, please take this form to your MEDICAL DOCTOR for completion and signature.

Failure to provide this form can jeopardize your child's nutritional safety while at school. It is our desire to protect and provide for your child during meal time as instructed by a trained medical professional. Please assist us by submitting required documentation as outlined.

Sincerely,

Thomas County School Nutrition Department

***Return form to your child's school nurse or fax/mail to:**
